Chair Vranish asked the committee members there thoughts regarding a report to the board. CM Harter suggested reporting that the purpose of the committee had been accomplished. The board will then close the committee; the committee can not do so on its own.

Mr. Hetyonk indicated the balance on Measure V is not 1.7 million as indicated on the financial report. There are still expenses for La Cuesta that are not encumbered and there were a number of projects at Santa Barbara High School that were funded from developer fees monies because of oversubscription of Measure V funds. Any remaining balance needs to be paid back to developer fees.

Mr. Hetyonk will present a report to board on October 27 regarding Measure V projects that he can share with the committee at the next meeting.

Mr. Mayrose asked the committee to consider adding to their board report an in depth study of further work needed, due to the bad condition of older buildings various school sites, and projects related to sustainability and energy.

**10. Discussion (possible action or recommendations) of Future Agenda Items**

Chair Vranish indicated it might be necessary to meet again to discuss the fact that there is no activity and pass along to the school board a work completed document. Also how we structure a document of unfunded and needed projects as something to look at.
