

Santa Barbara School Districts

Board Policy

BP 3511

Business and Non-Instructional Operations

WATER AND ENERGY CONSERVATION

The Board of Education shall establish goals for reducing energy and water use in the district in order to help conserve our society's natural resources and save money to support other district needs.

The Superintendent or designee shall establish a plan to meet energy and water use reduction goals, monitor energy consumption and encourage employees and students to conserve resources. The Superintendent or designee shall regularly inspect district facilities and operation and make recommendations for maintenance and capital expenditures that may help the district reach its energy and water consumption goals.

The Superintendent or designee will seek available grants to initiate or sustain conservation efforts.
