

Road to Renovation

Measure V

An update on the Santa Barbara High School District's Measure V bond-funded modernization, renovation, and new construction projects.

Bond Project Schedule: 2001–2007

Several bond-funded projects have now been completed. Other projects have gone to bid and work is underway. The resurfacing of San Marcos High's track will be completed by February 2002. The architects are working closely with the bond planning team at each school site. Coming soon to each campus and the Districts' web site <www.sbsdk12.org>: aerial photographs of each school, indicating specific construction details and locations of work to be performed.
